

Contractor and Installer Licensing Requirements

In order to be an Accredited Contractor, **you need to employ a Level 3 Certified Installer and one individual trained in the Quality Assurance Program.**

All of the above noted requirements must be completed in order to become an ABAA Accredited Contractor and in order to be awarded ABAA specified jobs.

All documents listed above are available on the “Documents for Download” page on the ABAA website or click the links* on this chart.

Any Questions? Please contact the ABAA Office at abaa@airbarrier.org or 866-956-5888.
